REPORTS OF HERBAL GARDEN

ORIENTATION REPORT ON HERBAL GARDEN

DATE	05 November, 2018
TIME	12:00-2:00 PM
VENUE	Choithram Camps
BENEFICIARIES	Bsc Nursing Students

On November 5, 2018, an informative orientation session on the Herbal Garden was held at Choithram College of Nursing. The session was conducted by Ms. Rosana under the guidance of Dr. Usha Ukande Principal. The purpose of this orientation was to familiarize students with the various medicinal plants in the Herbal Garden and to emphasize the importance of herbal medicine in nursing and healthcare.

Ms. Rosana began the session with a brief introduction to herbal medicine, highlighting its historical significance and contemporary relevance in healthcare. She emphasized the importance of understanding the therapeutic properties of herbs and their application in nursing care.

The orientation included a detailed walkthrough of the Herbal Garden, where Ms. Rosana explained the medicinal benefits of various plants. Key herbs discussed included:

- **Tulsi (Holy Basil):** Known for its anti-inflammatory and immunity-boosting properties.
- **Aloe Vera:** Widely used for its healing and soothing effects on the skin.
- **Neem:** Recognized for its antibacterial and antifungal properties.
- **Ashwagandha:** Used for stress relief and improving overall health.

Students were encouraged to actively participate by asking questions and sharing their knowledge about herbal remedies. Ms. Rosana also provided insights into the cultivation and care of these plants, emphasizing the importance of maintaining the garden for both educational and therapeutic purposes.

The orientation session was highly informative and well-received by the students. It not only enhanced their understanding of herbal medicine but also inspired them to

Detailed report of activities 2019-2020

REPORT ON WORLD EARTH DAY

DATE	23 April, 2019
TIME	2:00-4:00 PM
VENUE	Choithram Camps
BENEFICIARIES	BSc Nursing Students

On April 23, 2019, Choithram College of Nursing celebrated World Earth Day with an engaging and educational event focused on environmental awareness and sustainability. The event was conducted by Ms. Asha under the esteemed guidance of Principal Dr. Prof. Aradhana Michel. The celebration aimed to inspire students to take an active role in protecting the environment and to promote sustainable practices within the community.

Objectives of the Event:

- To raise awareness about the importance of environmental conservation.
- To educate students on sustainable practices that can be implemented in daily life.
- To encourage active participation in environmental protection initiatives.
- To foster a sense of responsibility among students towards the planet.

The event began with a welcoming address by Ms. Asha, who introduced the theme of World Earth Day and its relevance to nursing students. She emphasized the interconnectedness of environmental health and human well-being, highlighting the role of nurses in advocating for a healthy environment.

Ms. Asha led a tour of the college's Herbal Garden, where students learned about the medicinal properties of various plants and the importance of preserving natural resources to symbolize their commitment to the environment, students participated in a tree plantation drive within the college premises. Each student planted a sapling, contributing to the greening of the campus.

The event not only provided valuable knowledge but also inspired students to take actionable steps toward protecting the planet.

REPORT ON WORLD ENVIRONMENT DAY

DATE	06 June, 2019
TIME	12:00-2:00 PM
VENUE	Choithram Camps
BENEFICIARIES	BSc Nursing Students

On June 6, 2019, Choithram College of Nursing marked World Environment Day with an impactful event focused on environmental stewardship and sustainability. The event was led by Ms. Rosana under the esteemed guidance of Principal Dr. Prof. Aradhana Michel. The celebration aimed to instill a sense of environmental responsibility among students and to encourage them to contribute positively to the planet's well-being.

The event began with an inspiring address by Ms. Rosana, who introduced the theme of World Environment Day & discussed the impact of pollution, climate change, and resource depletion on public health. She also emphasized the importance of adopting sustainable practices in healthcare settings.

Students actively participated in a campus clean-up drive, where they collected waste, segregated recyclables, and ensured that the college premises were kept clean and green. This activity underscored the importance of maintaining a clean environment for overall well-being.

As a symbol of their commitment to environmental preservation, students planted trees around the college campus. Each student was encouraged to take responsibility for the care and growth of their sapling, fostering a long-term connection with nature.

The World Environment Day celebration at Choithram College of Nursing was a successful and enlightening experience for all participants. It deepened students' understanding of environmental issues and inspired them to take proactive steps towards sustainability.

Detailed report of activities 2022-2023

REPORT ON WORLD EARTH DAY

DATE	22 April, 2022
TIME	2:00-4:00 PM
VENUE	Choithram Camps
BENEFICIARIES	BSc Nursing Students

On April 22, 2022, Choithram College of Nursing celebrated World Earth Day with engaging activities designed to promote environmental awareness and sustainability. Organized by Mr. Anmol Joseph under the guidance of Principal Dr. Prof. Aradhana Michel, the event aimed to encourage students to actively participate in environmental conservation and integrate eco-friendly practices into their daily lives. The primary objectives were to raise awareness about the importance of environmental protection, educate students on sustainable practices and their impact on the planet, inspire a sense of responsibility toward the Earth among the student body, and promote the integration of environmental consciousness into nursing education and practice.

The event commenced with a welcome address by Mr. Anmol Joseph, who highlighted the theme of World Earth Day and its relevance to current global environmental challenges. He emphasized the role nursing professionals can play in advocating for a healthier planet, both personally and professionally. Students also participated in enhancing the college's Herbal Garden by planting medicinal plants, an activity that contributed to environmental conservation while serving as an educational tool.

Throughout the event, Mr. Joseph encouraged students to reflect on their role in safeguarding the environment and how their actions could contribute to a more sustainable future. He emphasized that environmental care aligns closely with the values of nursing, as both prioritize the well-being of individuals and communities.

The World Earth Day celebration at Choithram College of Nursing was a meaningful and impactful event that successfully raised awareness about environmental issues and inspired students to take proactive steps toward

BENEFICIARIES	BSc Nursing Students

On June 6, 2022, Choithram College of Nursing observed World Environment Day with the goal of raising awareness and promoting action for environmental protection. Organized by Mr. Anmol Joseph and guided by Dr. Prof. Aradhana Michel, the Principal, the event highlighted the critical need for collective efforts to preserve our planet's natural resources.

The event began with Mr. Anmol Joseph's address, where he highlighted the crucial role of environmental stewardship and the responsibility of individuals in safeguarding our planet.

Participants took part in a tree planting activity aimed at contributing to reforestation efforts and enhancing local green spaces. This hands-on activity emphasized the importance of increasing green cover in the community.

The event effectively raised awareness about environmental issues among participants. Many attendees reported a heightened sense of responsibility toward adopting sustainable living practices.

Sessions provided attendees with valuable insights into environmental science and practical solutions to ecological challenges. This knowledge equipped participants to make more informed decisions regarding environmental conservation.

Through interactive activities and community involvement, the event successfully met its goals of advancing World Environment Day's objectives. Participants were inspired to contribute positively to environmental conservation efforts.

ADULT HEALTH NURSING LAB

ADULT HEALTH NURSING LAB

The institution's Advanced Nursing Skill Laboratory spans an area of 1607 sq. ft., fully equipped to meet the Indian Nursing Council's standards. This lab features a comprehensive range of high-quality resources, including 7 full-body manikins designed specifically for advanced nursing training. These manikins allow for a wide variety of exercises, covering both routine nursing procedures and emergency situations.

Students can practice essential skills such as male and female urethral catheterization, CPR, suturing, wound care, intramuscular injections, breast self-examination, episiotomy care, and tracheostomy care etc. The Advanced Nursing Skill Laboratory is integral to providing hands-on training, ensuring that students are well-prepared to handle complex clinical scenarios with confidence and competence.

CHILD HEALTH NURSING LAB

CHILD HEALTH NURSING LAB

The Child Health Nursing Laboratory at our institution spans 1005 sq. ft., adhering to the guidelines set by the Indian Nursing Council. This specialized laboratory is dedicated to equipping students with a thorough understanding of paediatric nursing principles and practices. It provides an environment where students can develop the essential knowledge and skills needed to deliver comprehensive nursing care to children from infancy through adolescence, in both hospital and community settings.

In this laboratory, students gain hands-on experience in assessing, planning, and implementing care for children with various health needs. The lab is equipped with advanced paediatric models and 19 mannequins, representing a range of paediatric patients from new-borns to older children. These resources allow students to practice and perfect a variety of paediatric nursing procedures before they enter clinical settings.

The Child Health Nursing Laboratory plays a crucial role in preparing students for real-world paediatric care, ensuring they are competent in managing the health and well-being of children at different developmental stages. This lab provides a strong foundation for students in their journey to becoming skilled paediatric nurses.

PRE- CLINICAL LAB

PRE-CLINICAL LAB

The Pre-Clinical Lab equip students with a deep understanding of the normal structure and function of various human body systems. This knowledge is essential for identifying deviations from normal health, enabling students to provide effective nursing care. The primary objective of this laboratory is to educate students on the anatomy and physiology of the human body through the use of models, specimens, and other educational tools, helping them to correlate structure with function. This foundational understanding is crucial for grasping the complexities of various disease conditions.

The Pre-Clinical Science Laboratory is well-equipped with a wide range of resources, including an adult human articulated skeleton, an adult skull, pelvic models, a heart with large blood vessels, models of the eye and ear with detailed sections, and a full set of disarticulated adult human skeletons. These tools provide students with a comprehensive and practical learning experience, enhancing their ability to understand and apply anatomical and physiological concepts in clinical settings.

COMPUTER LAB

COMPUTER LAB

The Computer Lab is designed to provide students with the essential technical skills required in today's digital age. With two dedicated labs housing a total of 41 computers in both lab for students, these facilities offer students a robust environment for developing their computer literacy and proficiency in various software applications that are integral to modern nursing practice. The labs are equipped with up-to-date hardware and software, allowing students to engage in activities ranging from basic computer skills to more advanced applications, such as data management, research, and online learning. The computer labs also support the integration of technology in nursing education, offering students access to online resources, e-learning modules, and digital tools that enhance their learning experience.

The computer labs play a crucial role in preparing students for the technological demands of the healthcare industry, ensuring they are adept at using digital tools to support patient care, research, and continued professional development. The hands-on experience gained in these labs empowers students to navigate and leverage technology effectively in their nursing careers
