## PROGRAM SPECIFIC OUTCOME

Program Specific Outcomes (PSOs) define the specialized skills and knowledge that students are expected to gain upon completing a particular academic program. These outcomes focus on the unique competencies required for success in a specific field or industry, ensuring that graduates are well-prepared for their professional roles.

**On completion of four year Basic B. Sc. Nursing Degree Program the graduates will be able**

PSO1- To demonstrate clinical skills and knowledge required to provide safe and effective nursing care to individuals, families, and communities across the lifespan.

PSO2- To provide compassionate, culturally sensitive, and patient-centered care by understanding and respecting the unique needs and preferences of diverse populations.

PSO3- To conduct comprehensive and focused health assessments to identify health needs, diagnose conditions, and plan appropriate interventions.

PSO4- To utilize critical thinking, clinical reasoning, and evidence-based practice to make informed decisions and solve complex healthcare problems.

PSO5- To exhibit effective communication skills, both verbal and written, with patients, families, healthcare teams, and other stakeholders to ensure coordinated care.

PSO6- To practice nursing in accordance with ethical principles, legal regulations, and professional standards, demonstrating accountability and integrity in all actions.

PSO7- To apply leadership and management principles to coordinate and deliver care in a variety of healthcare settings, including hospitals, community health centers, and long-term care facilities.

PSO8- To implement health promotion and disease prevention strategies at the individual and community levels, contributing to public health goals.

PSO9- To engage in research activities and apply evidence-based practices to improve patient outcomes and contribute to the advancement of nursing knowledge.

PSO10- To utilize healthcare technologies and informatics tools effectively in clinical practice to enhance patient care and improve healthcare delivery systems.

PSO11- To commit to lifelong learning and professional development to keep pace with advancements in the field of nursing and to maintain competence in practice.

PSO12- To work collaboratively with other healthcare professionals to deliver holistic care and improve health outcomes, recognizing the importance of teamwork in healthcare.

## PROGRAM SPECIFIC OUTCOME – M. SC. NURSING

### On Completion of Two Year M. SC. Nursing Degree Program Students Will Be Able

PSO1- To demonstrate advanced clinical skills and knowledge in a specialized area of nursing practice, providing expert care to patients across different settings.

PSO2- To integrate advanced evidence-based knowledge into clinical decision-making to enhance patient care and improve healthcare outcomes.

PSO3- To apply leadership principles and strategies to influence healthcare policy, guide nursing practice, and lead multidisciplinary teams in complex healthcare environments.

PSO4- To conduct and contribute to nursing research, utilizing appropriate methodologies to generate new knowledge and improve clinical practices.

PSO5- To analyze and influence healthcare policies to advocate for patients, the nursing profession, and the broader health system, ensuring equitable and quality care.

PSO6- To perform comprehensive and specialized assessments, and implement advanced interventions tailored to the needs of a specific patient population.

PSO7- To engage in ethical decision-making processes, addressing complex moral dilemmas in advanced nursing practice and research.

PSO8- To serve as an educator and mentor to nursing students, junior staff, and peers, fostering professional development and promoting excellence in nursing education.

PSO9- To lead and participate in inter professional teams, collaborating effectively with other healthcare professionals to deliver high-quality, coordinated care.

PSO10- To utilize advanced healthcare technologies and informatics in nursing practice to enhance patient outcomes, streamline care processes, and contribute to healthcare innovation.

PSO11- To lead quality improvement initiatives within healthcare organizations to enhance patient safety, improve clinical outcomes, and promote efficient healthcare delivery.
