Subject: Facilities and Specialized Areas at Choithram Hospital and Research Centre (Parent Hospital) for Clinical posting of Nursing Students of Choithram College.

Dear Madam,

Choithram Hospital & Research Centre which is 350 bedded Multi speciality Tertiary Care Centre has been associated with Choithram College of Nursing as its parent hospital since the college's inception in 1982.

Choithram Hospital and Research Centre offers a comprehensive range of facilities and specialized areas for the clinical posting of nursing students from Choithram College of Nursing. Our advanced infrastructure and progressive medical departments are designed to provide students with an extensive clinical education and hands-on experience.

The following facilities and specialized areas are available for nursing student postings at Choithram Hospital and Research Centre:

- **Emergency and Trauma Centre** equipped to handle all kinds of medical emergencies with a dedicated team of specialists.
- **Comprehensive care units** including all **Critical Care Units** such as ICU, CCU, NICU, and PICU for critically ill patients.
- **Specialized Renal and Liver Transplant Unit** providing care for renal and liver transplantation with pre- and post-operative care.
- **Modern Operation Theatres (OT)** equipped with the latest surgical technologies.
- **Specialized Burn Unit** offering treatment and care for burn patients, including intensive care and rehabilitation.
- **Advanced Cath Lab** offering catheterization for cardiac and vascular interventions.
- **Oncology Department** providing comprehensive cancer care, including medical, surgical, and radiation oncology.
- **State-of-the-art Dialysis Unit** providing haemodialysis services.
- **Advanced Microbiology Laboratory** facilities for studying microorganisms, including bacteriology, virology, mycology, and parasitology.
- **Fully equipped Pathology Laboratory** with modern diagnostic tools for a wide range of tests and analyses.
- **Fully functional Blood Bank** with component separation and aphaeresis services.
- **Infection Control Department** dedicated to preventing and controlling hospital-acquired infections with rigorous protocols and training.
- **Advanced imaging services** through our **PET and Nuclear Medicine department**, including PET scans and other nuclear medicine techniques for accurate diagnosis and treatment planning.
